Policy-to-Product Architectural Blueprint

Digital Public Infrastructure 2.0

- Next-generation **entitlement discovery** layer shifting welfare delivery from reactive search to proactive, profile-first matching.
- Seamless **convergence** embedding directly into UMANG with Aadhaar-backed authentication.
- **Deterministic, explainable** architecture engineered for population scale across 28 states and 8 Union Territories.

Macro Impact Metrics

1.4 Billion

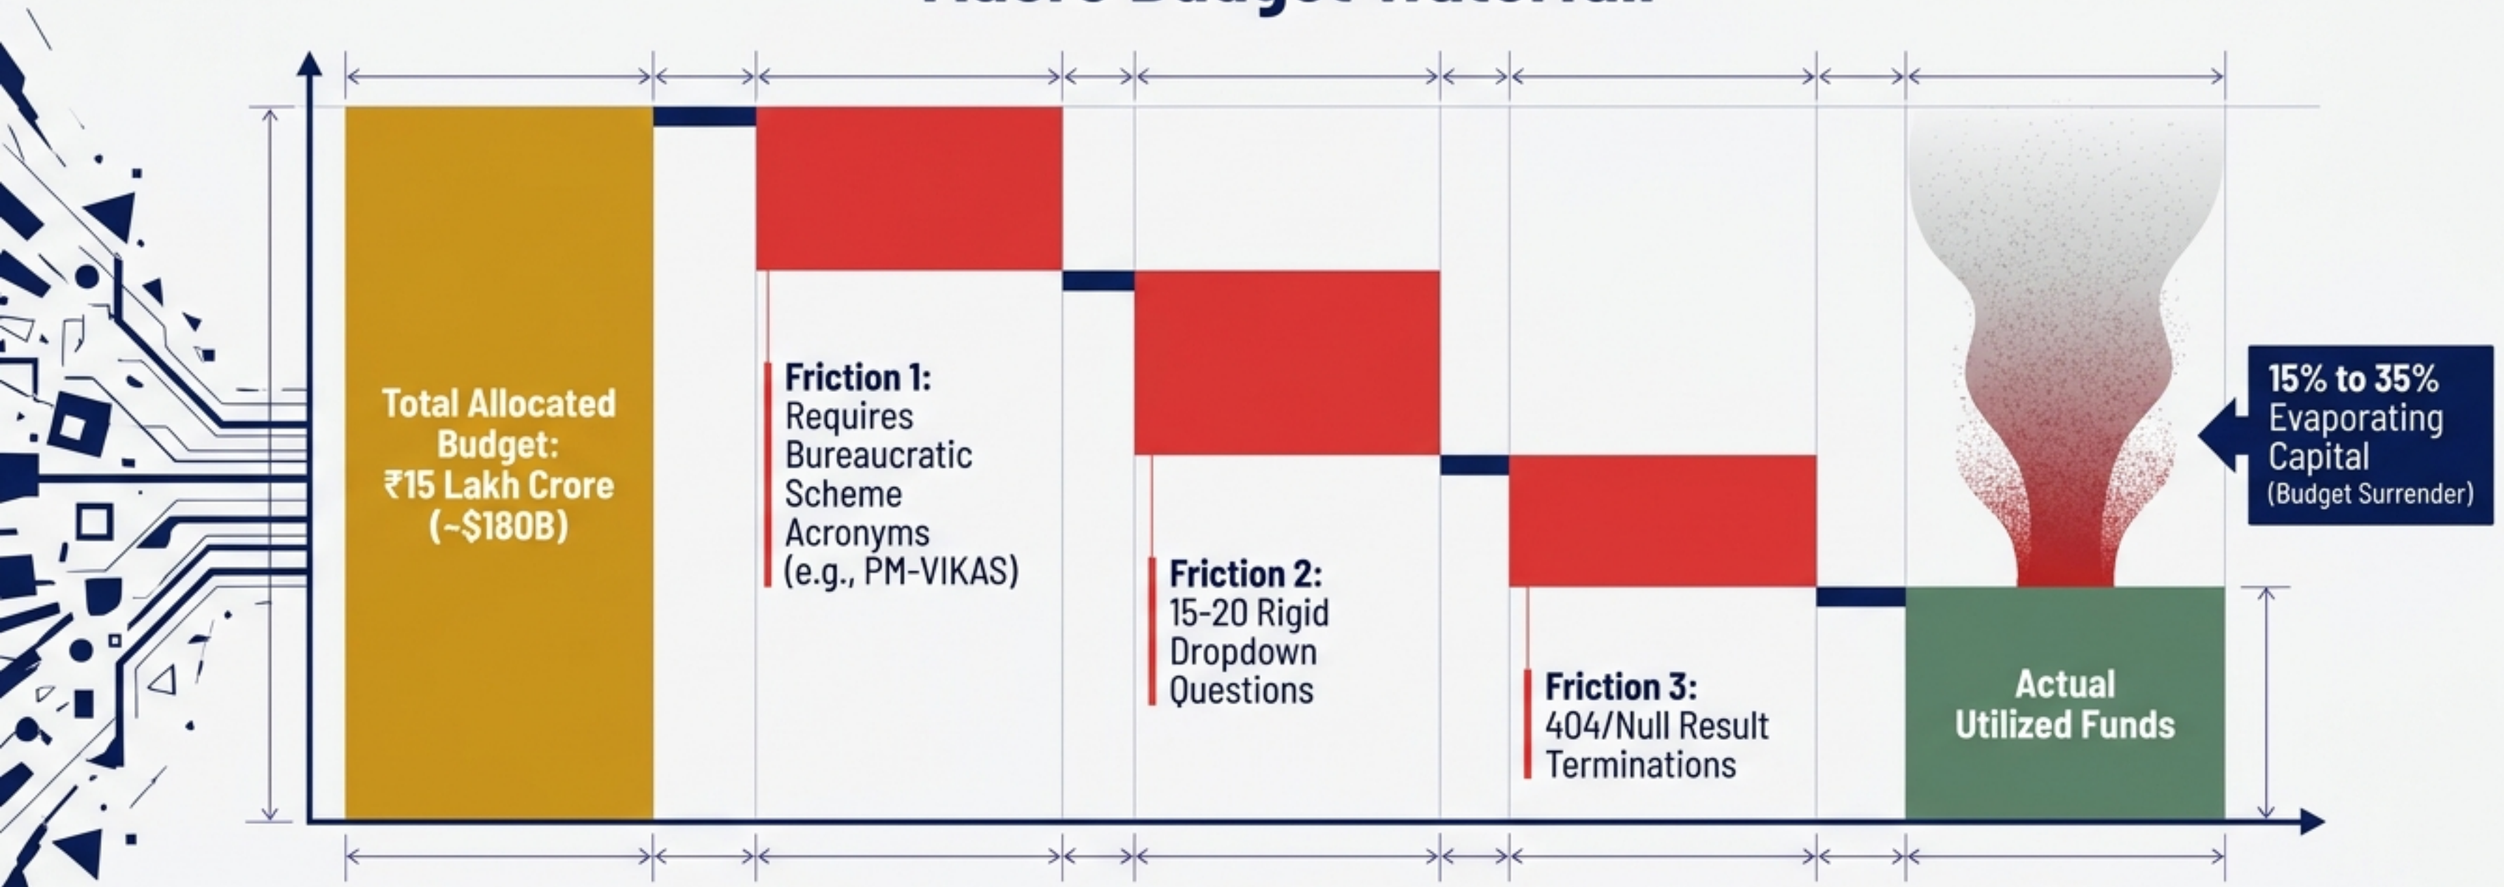

Target Reach: Citizens across 2,000+ schemes.

₹15 Lakh Crore (~$180B)

Welfare Envelope: Accelerating direct access to the annual budget pool.

Macro Budget Waterfall

KEY TAKEAWAY

Citizens must know obscure gazette names to claim benefits, placing the burden of bureaucracy on the vulnerable.

KEY DATA TAKEAWAY

Line ministries managing skilling, minority entrepreneurship, and higher education suffer chronic 15-35% **under-subscription** solely due to information asymmetry.

The Inversion from Keyword Search to Profile-First Reverse Mapping

Paradigm Shift Matrix

	⚠ Legacy Discovery Paradigm	✓ Mera Haq DPI 2.0 Paradigm
Trigger	Citizen searches 50+ departmental portals.	System proactively pulls matches to a unified UI.
Onboarding Load	15+ complex fields.	3 baseline fields.
Output	High-frequency Null results.	Curated, pre-matched benefits feed.
Architecture	Siloed databases.	Unified Edge Evaluation.

- Eliminates repetitive KYC re-submissions by leveraging existing digital rails.
- The scheme finds the citizen, not the other way around.

Progressive Profiling Unlocks Discovery in 30 Seconds

Stage 1 (Wide Funnel)

Stage 2 (Narrow Funnel)

Input Load Reduction

85% reduction in initial input load (from 20 manual dropdowns to 3 inputs).

Completion Rate Projection

>88%
<18%

Form completion rate projected to jump from <18% (legacy portals) to **>88%** (via progressive profiling).

Drop-off Fatigue Elimination

Zero drop-off fatigue. Questions are only asked when they materially unlock a specific entitlement.

Total Average Value Unlocked Per Eligible Household: ₹85,000 to ₹250,000

Mean highlight of **₹1,67,500** achieved in < 3 minutes of discovery

Citizen Balance Sheet

Direct DBT Cash Transfers
(e.g., monthly stipends)

Cost-Avoided Waivers
(e.g., fee waivers, deep-tech training)

Subsidized Credit
(e.g., collateral-free loans, interest subvention)

Key Insight 1

Transforms government welfare from abstract safety nets into quantifiable household balance-sheet assets.

Key Insight 2

Clear categorical separation prevents fiscal **misrepresentation** between cash outlays and credit lines that require repayment.

The Deterministic ‘Why Do I Match?’ Audit Matrix

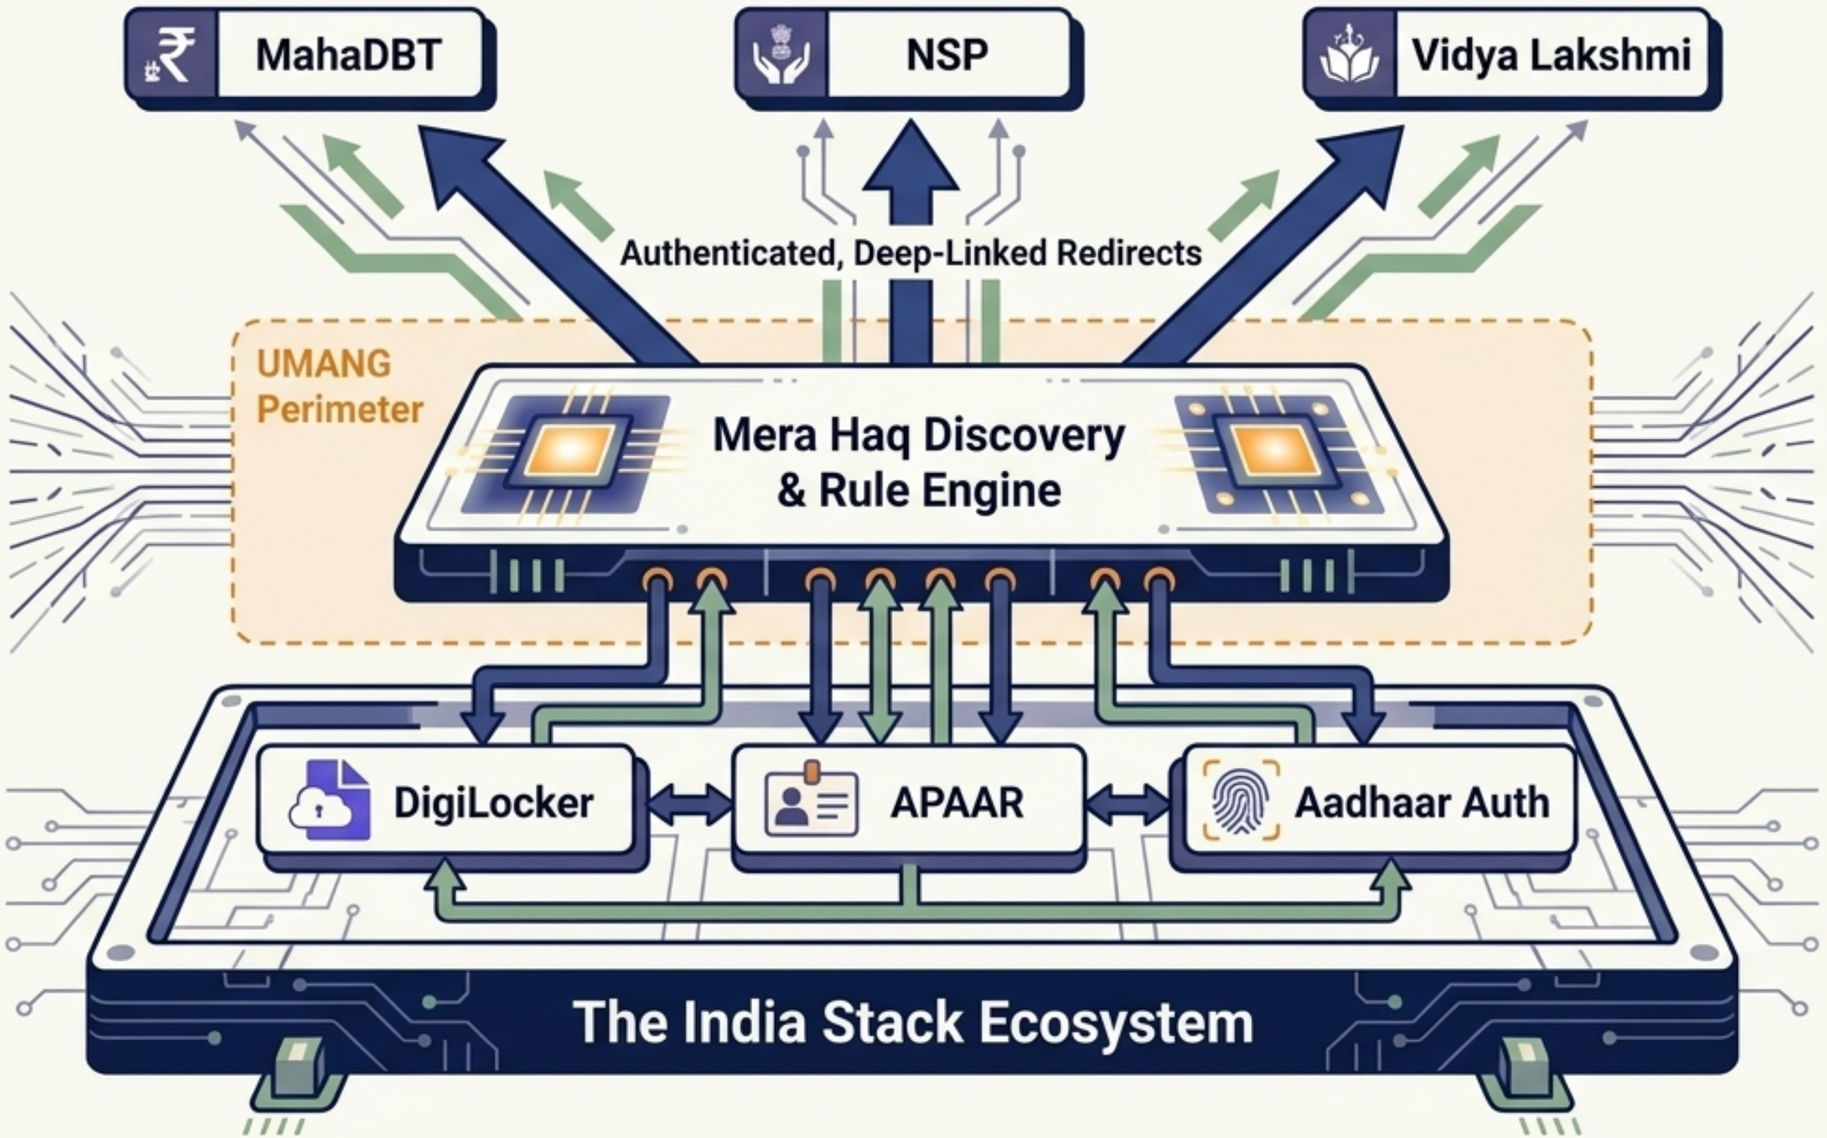

Governance Key Insights

- **100% Policy Traceability**: Replaces opaque algorithmic ranking with an auditable criteria-evaluation matrix directly citing official gazettes.
- **Minimizes administrative processing loads** by filtering out non-qualifying submissions upfront.

Seamless Handshake with the India Stack Ecosystem

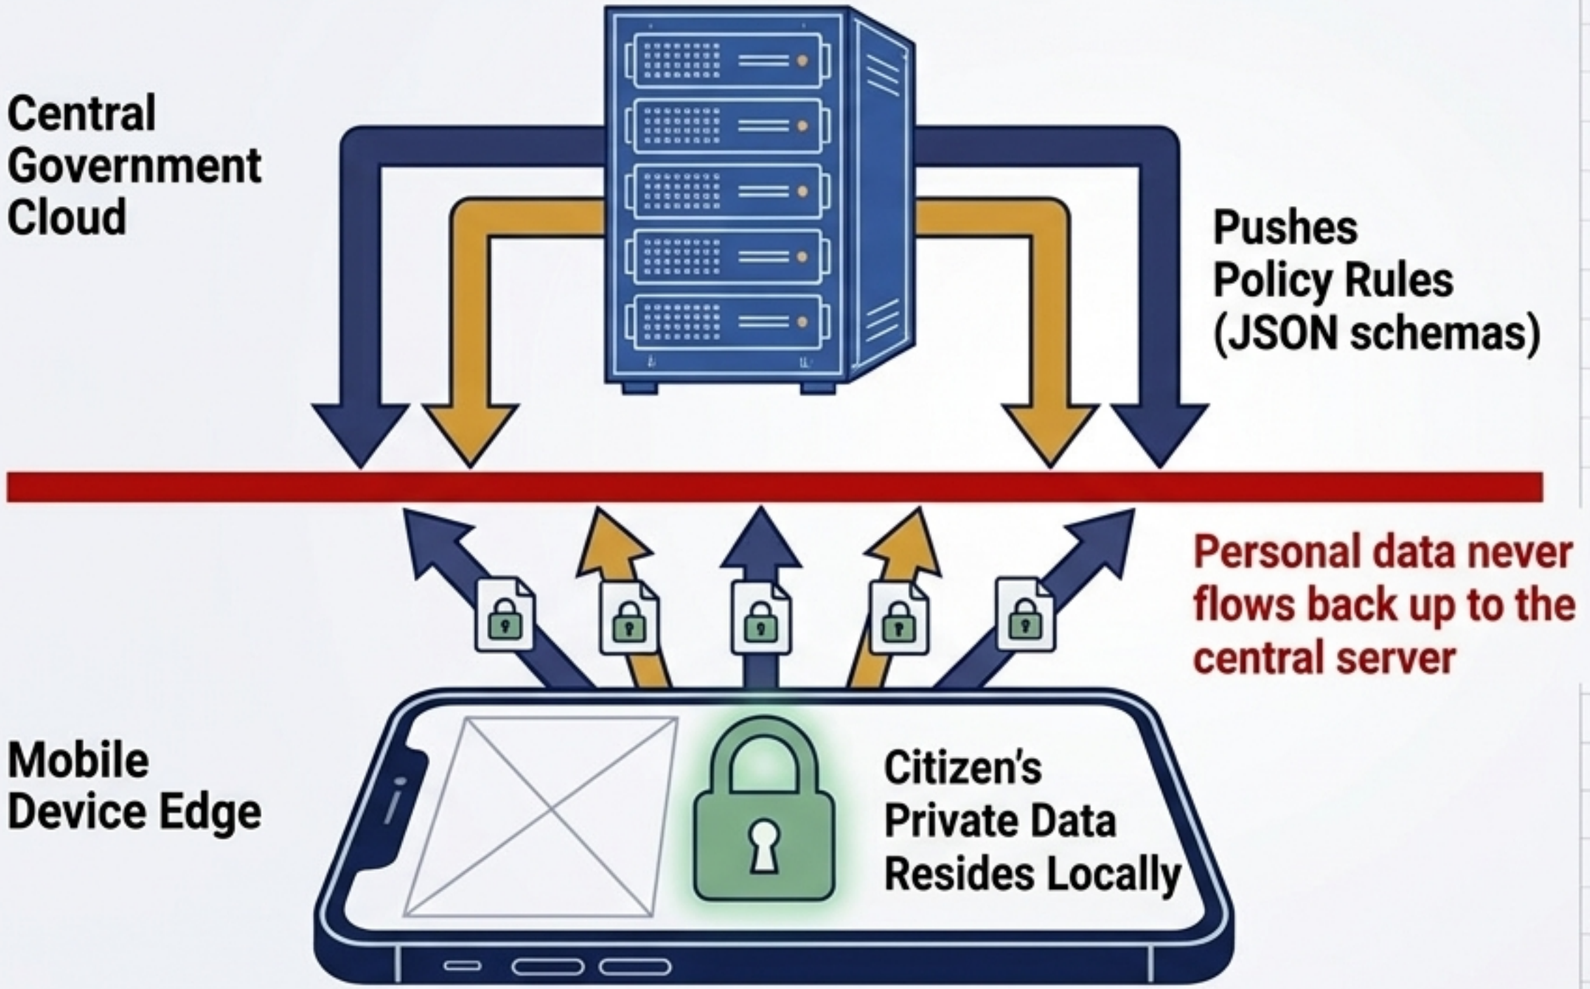

Key Insights

- **Zero Lock-In Model:** Does not attempt to replace transactional departmental portals.
- **1-Click Application Preparedness:** Pre-populates verified credentials directly from the citizen's vault, reducing multi-week verification cycles to real-time.

Sovereign Trust via Zero Data-Hoarding Architecture

Compliance & Security Insights

- Strict alignment with the Digital Personal Data Protection (DPDP) Act.
- **Stateless Discovery Handshake:** Profile parameters clear from active memory once the matching session terminates.
- **Prevents the creation of centralized surveillance honeypots** while reducing central server compute loads.

Day 90
Pan-India Launch

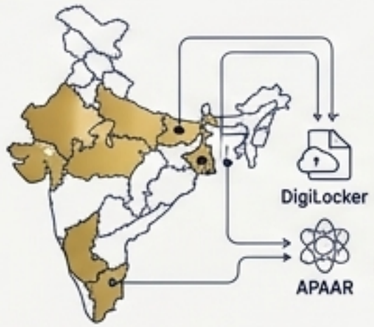

Phase 1: Foundation (Days 1–30)

NITI Aayog codifies central/state gazette rules into deterministic JSON schemas; schemas; NeGD integrates native UI into UMANG testing environment.

Phase 2: Pilot Sandboxing (Days 31–60)

Pilot across 5 key states with 200 high-density schemes. Parallel integration with DigiLocker and APAAR rails.

Phase 3: Nationwide Deployment (Days 61–90)

Full population-scale rollout on UMANG with pan-India regional language localization.

Quarter 1 Target Impact

- Reach **10 Million+** citizens.
- Unlock an estimated **₹1,000+ Crore** in discovered entitlements, immediately activating unspent budget lines before end-of-year administrative surrenders.
